
NAVADAN MOORING MASTERS

NAVADAN provides you with experienced mooring masters with extensive pilot background to fulfill all requirements for STS operations, emergency lightering via ship to ship transfers etc.

All **NAVADAN** Mooring Masters hold a valid Master Mariner Class-1 certificate. Certificates are in accordance with the STCW 1995 convention and Certificates of Competency and Dangerous Cargo Endorsements appropriate to the type of cargo to be transferred.

Our **NAVADAN** Mooring Masters have **SAFETY and ENVIRONMENT** as their first priority when involved in STS operations.

The **NAVADAN** Mooring Master will ensure safe operation within the standards determined by the International Chamber of Shipping (ICS) and OCIMF, found in the booklet "Ship to Ship Transfer Guide (Petroleum)".

When appointing the **NAVADAN** Mooring Master you, as our customer, can rely on that among others the following responsibilities will be taken into account:

- Ensuring that safety and environmental procedures are followed
- Maneuvering of the vessels involved in the STS operation
- Advice the Captains when the 2 vessels are approaching, being positioned and being moored
- Ensuring that all procedures are followed and within the industrial practice as described in the ICS Ship to Ship transfer guide (petroleum)
- Terminating the STS operation if the safety of crew, environment or vessels so requires
- Correct positioning of the vessels involved
- Monitoring of the transfer operation, preventing that leaks or spills will occur during the transfer.
- Full cargo calculation / quantity survey can be provided
